RiskPreventionOnline.com

As a Substance Abuse Professional (SAP), you need educational resources to support evaluations while remaining consistent with DOT guidelines and expectations. Our DOT-compliant online education programs are **designed to complement your clinical judgment** and assist safety-sensitive employees **during the Return-to-Duty process**.

Our courses provide structured education on substance use risks, DOT drug and alcohol testing requirements, and personal accountability. The emphasis is on informed decision-making and behavior change, delivered in a professional, non-judgmental format designed to also support your role as a SAP.

All programs are **fully online and mobile-friendly**, utilizing interactive learning, reflective exercises, and audio narration to engage different learning styles while maintaining instructional integrity. Course completion is documented through certified transcripts, allowing you to review participation, and comprehension as part of your evaluation and follow-up process.

What sets us apart? We are...

- **100% Online**
- **Accessible 24/7 from any device**
- **Self-paced and easy to use**
- **Modernized - consistently updating our content**
- **Interactive - participation is required to complete a class**

Why SAPs Trust RPO

At Risk Prevention Online, we understand how important it is for SAPs to monitor client progress throughout the return-to-duty process. That's why we offer full transparency through our Transcripts.

Each Participant Transcript Includes:

- Short essay responses
- Selected answers for all questions
- Final exam score
- Scores from all chapter quizzes
- Total time spent in the course
- Completed chapters or modules
- Digital activity log

Certified Transcripts & Documentation Support

Each course includes a certified transcript of the participant's full course activity, providing transparency into how the employee engaged with the material. Transcripts show attendance verification, time stamps, responses to course questions, and completion.

This 'written' documentation serves as an additional tool in a SAP's professional toolkit—supporting your ability to assess understanding, motivation, and readiness for Return-to-Duty or follow-up recommendations. Whether you are reviewing compliance, preparing for a follow-up evaluation, or maintaining records, the transcript provides clear, objective insight into the participant's educational progress.

Our goal is to simplify the educational component of the process while giving SAPs reliable, DOT-aligned documentation. So, you can evaluate your clients with confidence and focus on what matters most: public safety.

DOT SAFETY PROGRAMS

These courses provide DOT safety-sensitive employees with essential information on FMCSA Clearinghouse, drug testing procedures, and substance use. It also covers real-world drug and alcohol-related incidents and explains the Return-to-Duty process in clear, practical terms.

RISK PREVENTION ONLINE

DRUG & ALCOHOL EDUCATION

Our drug and alcohol courses explore the risks of substances, both separately and when combined, and how they affect driving, workplace performance, and decision-making. Participants learn about the consequences and how to protect themselves and others.

COCAINE & OTHER STIMULANTS

This course covers the risks and effects of cocaine and other stimulants, including how they impact health, decision-making, driving, and workplace performance. Participants learn to recognize dangers, understand consequences, and make safer choices.

DRIVING UNDER THE INFLUENCE (DUI)

Our DUI course focuses on the risks and consequences of impaired driving; emphasizing how alcohol and drugs affect judgment and reaction time in safety-sensitive roles. Participants learn to take responsibility for their actions and make safer choices both on and off the job.

ANGER MANAGEMENT

Our anger management courses focus on understanding anger, identifying triggers, and learning healthy ways to manage reactions. Participants gain practical tools to improve self-control, strengthen communication, and make more positive choices in everyday situations.

ALCOHOL EDUCATION

Our alcohol education courses focus on the effects of alcohol on the body, mind, and behavior, and emphasize why staying sober is the safest choice. Participants learn about risks, consequences, and strategies to make healthier, safer decisions.

MARIJUANA & THC

The marijuana and THC courses focus on the effects and risks of cannabis use, including how it can impact health, behavior, and decision-making. Participants learn that even use for relaxation or sleep can be dangerous, and how it can risk public safety.

DRIVER SAFETY

These driver safety courses focus on safe driving practices, hazard awareness, and the impact of distractions, fatigue, and substance use on performance. Participants learn practical strategies to reduce risk, prevent accidents, and make safer choices on the road.

SUBSTANCE ABUSE

These substance abuse courses focus on understanding the risks and effects of drugs and alcohol on health, behavior, and decision-making. Participants learn to recognize warning signs, understand consequences, and make safer, healthier choices.

Education You Can Trust.

Our educational programs are developed to increase awareness of the impacts of alcohol and controlled substances on health, impairment, and public safety. We believe effective education for DOT employees is critical to maintaining a safe and informed environment. Risk Prevention Online is committed to supporting individuals as they return-to-duty safely and confidently.
